

THE HIDDEN VENTILATION SOFFIT SYSTEM

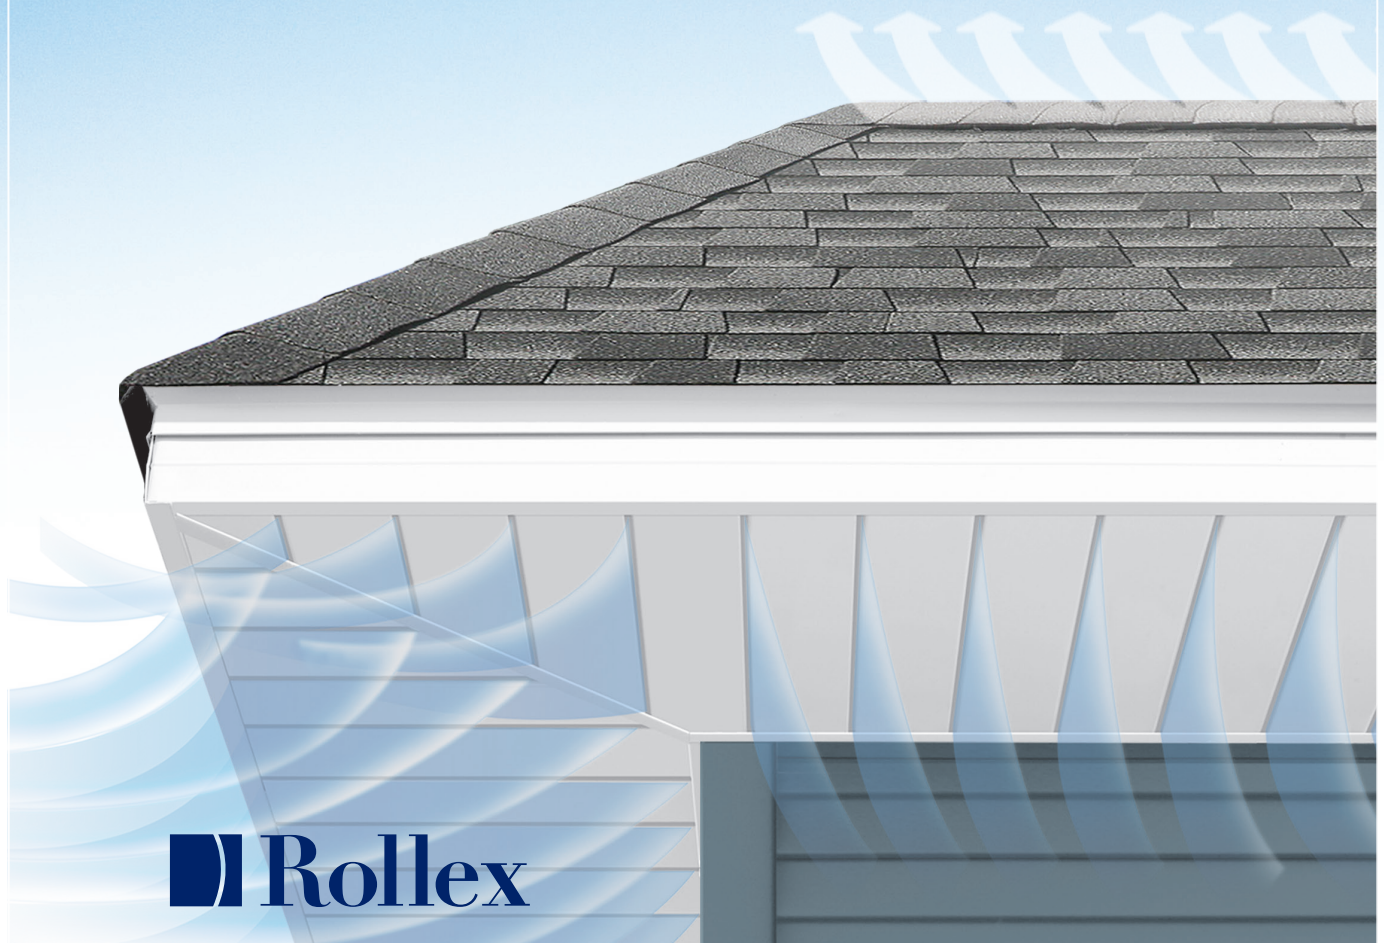

VENTILATION & DESIGN PERFECTED

Experience the perfected combination of ventilation and design in our **STEALTH** Aluminum Soffit System. This discrete and high functioning design offers an attractive, smooth exterior surface without any visible venting. Beneath its striking exterior is a hidden ventilation solution promoting continuous air flow to keep attics cool and dry.

Hidden vents deliver total net free air of 8 square inches per lineal foot allowing a healthy exchange of air. Continuous air circulation keeps dangerous hot air out in summer months and prevents high levels of moisture which can cause mold, mildew and ice damage.

- Prevents premature aging of roof systems
- Provides optimum air-flow
- Never needs painting
- Guaranteed not to crack, fade or peel
- Long lasting quality maintains beauty for decades
- Environmentally responsible
